Letter No A S C 578/36-37 dated 4-9-1936 from the Deputy Commissioner, Kolar District forwarding the resolution of the Chintamani Town Municipal Council approving of the appointment of an Assistant Sanitary Inspector on Rs 25-1-35 p m + 5 p m as in place of the Vaccinator on Rs 28 p m for reasons given and stating that the Assistant Sanitary Inspector, if sanctioned, will be employed only after the Vaccinator is absorbed elsewhere

2 The Deputy Commissioner's letter explains in detail the reasons for doing away with the Vaccinator and for appointing an Assistant Sanitary Inspector instead -

3 While submitting proposals for the appointment of a Chief officer to the Chintamani Municipality the D C Kolar had recommended that an Asst Sany Inspector may be employed in place of the existing Vaccinator But in G O No L 7422-4/ Mi 64-34-25 dated 25-4-35 sanctioning the appointment of a Chief officer, it was directed that the vaccinator's post be continued The proposal to have an Asst Sanitary Inspector after abolishing the Vaccinator's post has been discussed in detail in the file before issuing the orders referred to above

4 It is curious to note that neither the President Chintamani Municipality nor the D C Kolar makes any reference to the previous correspondence

L.S.G. BRANCH.

FROM J.Appaji Gowda Esq., B.A.,(Hons).,
Deputy Commissioner,
Kolar District

To

M.Venkatanarenappa Esq., B.A.,
SECRETARY TO GOVERNMENT OF MYSORE,
Development Department,
Bangalore.

SIR,

I have the honour to state that the Municipal Council, Chickballapur Town have proposed to appoint an Assistant Sanitary Inspector on Rs.25-1-35 plus Rs.5/- C.A. in place of the present Vaccinator on Rs.28/- in grade 25-1-30, as the latter does only vaccination work whereas the proposed Assistant Sanitary Inspector will attend to sanitation work in addition.

The President in his report states that the Chief Officer has got heavy duties devolving on him in as much as he has to attend to execution of public works, preparation of estimates and bills, collection of Municipal taxes, supervision of octroi collection and management of municipal office and that a trained Assistant Sanitary Inspector will be very useful to him in his sanitary and other minor executive duties. The vaccinator being an untrained man cannot do any work other than vaccination and such vaccination work will not give him full work. During last year he has done only 362 primary vaccinations and 245 re-vaccinations which do not work out even to 2 cases per day on an average. It is also ascertained that there are only 218 unprotected children in the town. To continue a vaccinator on Rs.28/- per mensem to do this light work only is not desirable. If, however, an Assistant Sanitary Inspector is employed, he will in addition to attending to the vaccination work also look after sanitation work under the supervision and control of the Chief Officer.

The extra cost involved by this arrangement will be only Rs.7½ per mensem or Rs.87/- per year.

An Assistant Sanitary Inspector on Rs.25-1-35 plus Rs.5/- C.A. will be entertained only after the present vaccinator is -

may be absorbed elsewhere by the Department of Health.

Under the above circumstances I request that sanction of Government may kindly be obtained to the resolution of the Municipal Council to appoint an Assistant Sanitary Inspector in place of a vaccinator on Rs.25-1-35 plus Rs.5/- cycle allowance, the appointment to take effect after the vaccinator is absorbed elsewhere, the extra cost during the current year being met by reappropriation.

A copy of the resolution together with a copy of President's letter referred to is herein enclosed for perusal.

I have the honour to be,
Sir,
Your most obedient servant,

for Deputy Commissioner,
Kolar District.

Letter No.H.C.36/36-37 dated 22-8-36 from the President, Chickballapur Town Municipal Council, to the Deputy Commissioner, Kolar District.

With reference to your Memo No.A.5.C 578/36-37 dated the 17th instant, I have the honour to state that the vaccinator of this Municipality has done 362 primary vaccinations and 245 revaccinations during the year 1935-36 and there are 218 unprotected children at present in this Town.

The vaccinator being an untrained man in the matters of Sanitation and public health, he will not be of any help to the Chief Officer in his Sanitary duties, control of epidemics and execution of minor public works An Assistant Sanitary Inspector who will be a trained man both in Sanitation and minor Sanitary Engineering will be useful for the purpose here

From the statistics furnished in para 1 supra it may be seen that the vaccinator on an average has done one primary vaccination per day and including revaccinations it does not work up even two cases per day on an average. The present Vaccinator is getting Rs.28/- per mensem If the work is entrusted to the District Board Vaccinator and 0-2-0 per case as per rules is given to the District Board as contribution the cost would be only a very small fraction of what is being spent on the pay of the whole-time vaccinator at present

The proposal will have to be considered only after the appointment of an Assistant Sanitary Inspector is sanctioned

Under the circumstances I request you to kindly obtain sanction of Government to the resolution of the Municipal Council to entertain an Assistant Sanitary Inspector for this Municipality in lieu of the present vaccinator.
